

The Town of Hamilton

Community Electricity Aggregation Program

February 3, 2020

Dear Basic Service Customer,

The Town of Hamilton approved a Community Electricity Aggregation Program authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with National Grid. The goals of the Program are to provide you with competitive choice, longer-term price stability and more renewable energy options.

You will be automatically enrolled in the Hamilton Community Electricity Aggregation Program unless you choose not to participate. **YOU MUST MAIL AND POSTMARK YOUR OPT-OUT CARD ON OR BEFORE MARCH 6, 2020 TO AVOID AUTOMATIC ENROLLMENT IN THE AGGREGATION PROGRAM.**

After a competitive bid process, NextEra Energy Services was selected as our Electricity Supplier with a contract term from your scheduled December 2018 meter reading to your December 2020 meter reading.

Rate Class	"Hamilton Local Green" Five (5) Percent More Local Renewable Energy Than Required (Standard Product - No Action Required)	"Hamilton Premium 100% Local Green" (100) Percent Local Renewable Energy	"Hamilton Basic" No Additional Local Renewable Energy	National Grid Basic Service November 1, 2019 – April 30, 2020
Residential	\$0.11407/kWh	\$0.13402/kWh	\$0.11302/kWh	\$0.13957/kWh
Small Commercial	\$0.11407/kWh	\$0.13402/kWh	\$0.11302/kWh	\$0.12160/kWh
Industrial	\$0.11407/kWh	\$0.13402/kWh	\$0.11302/kWh	\$0.11269/kWh NEMA*
Duration	December 2018 – December 2020 Rates apply to service beginning and ending on the days of the month that your meter is read in your service area.			November 1, 2019 – April 30, 2020 Residential and Small Commercial rates change every six months. *Industrial rates change every three months.

Rates indicated above are for Supply Services only. Under the contract, the rate per kWh for electric supply will be fixed until your December 2020 meter reading. The Standard Product rate will remain below National Grid's Basic Service rate until May 1, 2020 when National Grid Basic Service rates change at the end of April 2020 for Residential and Small Commercial customers and at the end of April 2020 for Industrial customers. Program prices could increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply agreement.

There is no guarantee of future savings. The primary intent of the Program is to provide price stability and savings over the duration of the 24-month term. However, National Grid rates for electric supply change every six months (May 1 and November 1) for Residential and Small Commercial customers, and every three months for Industrial customers. Thus, National Grid's Basic Service rates may be above or below the Program rate during any given six-month period.

ADMINISTRATIVE ADDERS for all Hamilton programs are included in above rates. These fees are: \$0.001/kWh for the aggregation consultant and \$0.000025/kWh for the Metropolitan Area Planning Commission (MAPC), the regional planning agency assisting the Program.
